

EXHIBITIONS

Intersec Dubai 2012

Intersec is the leading international meeting platform for the Security & Safety industry. We along with our principals, Knurr Technical Furniture, were present at Intersec 2012 exhibiting our product range.

Middle East Electricity 2012

Middle East Electricity is positioned as the meeting place for international companies to showcase their products and services for the power, lighting, renewable and nuclear sectors to a proven audience of key decision makers from over 100 countries worldwide. We exhibited our Outside Plant Products range from Volta Macchine, Italy.

QITCOM 2012

Our first time participation in a Qatar exhibition, not only helped us set a base for our future working there, but also gave us an insight into market demand and working methodology. Focusing mainly on FTTH products and Datacenter Solutions, visitors were also introduced to our other products, services and technology which can be of great support for the developing Qatar market.

WETEX 2012 – organized by DEWA

We had a great experience participating in WETEX 2012, where we were introduced to the various government organizations. Our Servertech CDUs were listed and certified as environmental friendly by DEWA.

Gitex 2012

Dafnia has been a known face at GITEX for many years. We believe that this exhibition helps us to bring us in touch with our customer's needs. We have used GITEX as a means of highlighting our product quality and their benefits when directly compared with our competitors present at this exhibition.

DCD Dubai 2012

Datacenter Dynamics is specifically designed to fill the knowledge and networking needs for both those responsible for the design, build an operation of IT facilities as well as key IT decision makers responsible for strategic decisions regarding capacity planning and technology investment. We presented our fiber cleaning products – STICKLERS, USA to our customers

DCD Doha 2012

Participating in this conference cum exhibition gives us the scope of placing ourselves as one of the Datacenter Solution providers. Not only do we get a chance to meet supplier/potential customers but also learn about new technologies which in turn helps us to develop to meet the latest demands. We presented Side to Side airflow solutions from CONTEG, Czech Republic and fiber cleaning products – Sticklers, USA to our visitors.
