

# SUPPLIER INTERACTION

## Seminar - Tomorrow's Networking... Today's Technology (Inno/Sticklers)

A presentation by Mr. Mike Jones, Technical Expert – Sticklers, USA and live demo organized by Mr. JungYo Moon, Overseas Sales Manager – Inno, Korea updated our customers about Clean Fiber Networking. A one-on-one interaction between our principles and customers was the highlight along with the special offers.

## Pressac Meet

Mr. Jasper Spencer, Sales and Marketing Director – Pressac, UK visited us to get views on the developing technology which can further help them enhance their product range. By meeting the customers and our executives we got interesting suggestions and comments and hopefully we will be able to in-corporate them soon.
